MAKING BAD PLUMBING
 Good is a big part of our business. We dislike the work in one way. It shows us what really bad work some alleged plumbers can do. It is very satisfactory in another way. For when we finish the job, the persons for whom we work see the difference at once. They give us their plumbing work forever after.

"GOD NIGHT"
 Men's Night Shirts—Night Gowns are fast being relegated to mere recollection. Now it's Pajamas—with the accompanying joy that comes with the advent of each innovation—if an improvement. Pajamas is—it takes two garments to make the one article and a single thing is always singular—in this case the real thing. For the edification of those who are not aware of the progress of big inventions, it may be revealed, in passing, that a pajama is of an upper pajama and a lower pajama—and the two united snug about a man—warding off the chilly creeps that gambol in the fall nights and twinge in the winter ones, soothes man's tired body into restful sleep which knoweth no awakening till morn. And that's why we urge our pajamas.
